

PIENAAR ENERGY (PTY) LTD

Solar panels solar sun room

Overview

If you're considering adding solar panels to your roof, this article explores how much energy you could potentially save by installing them on your existing sunroom. Before you install solar panels on your sunroom or any other part of your roof, I recommend. A sunroom is a small room, often on the ground floor of a home, that is designed to be used as an additional living area. Sunrooms are popular in climates with cold winters because they provide warmth and sunshine all year round. The most common type of sunroom has windows facing south or west for. Let's investigate how putting solar panels in your sunroom may make the area more energy-efficient. It includes solar room ideas and design information, as well as construction drawings and some example photos of solar rooms.
