

PIENAAR ENERGY (PTY) LTD

Solar photovoltaic panels on the ground

Overview

As the name suggests, ground-mounted solar panels are mounted to the ground, rather than a roof. Whether yours is too sloped, only has space on the north side, or isn't the right material, you might not be able to get rooftop solar. On top of being an alternative to rooftop solar, ground-mounted solar systems can be used on farms, in your garden, and more! In this article, we'll explain what a. Whether your roof isn't ideal for solar panels or you simply want to maximize your energy production, ground-mounted solar panels offer a versatile solution. They offer an excellent alternative for homeowners with unsuitable roofs or those wanting maximum energy production.
