

PIENAAR ENERGY (PTY) LTD

Solar power generation construction companies

Overview

We are leading solar energy facility contractors. We design, build, expand and maintain efficient, cost-effective solar energy facilities from the ground up, helping our clients meet growing needs for clean, sustainable power and ongoing energy conservation. Working with preferred engineering firms. At Mortenson, we partner with you from preconstruction to commissioning and beyond. With our unmatched technical expertise, 100% self-perform capabilities, transparent communication and zero injury culture, we ensure you have a positive and successful project experience. Supporting our clients from conceptual design through construction and start-up, Sundt has constructed and installed major systems for coal- and gas-fired plants, hydro-electric power plants, solar generating. Our renewable, environmental and thermal technologies provide integrated systems solutions for the next generation of power production as evidenced by the 100+ projects the B&W solar construction company has installed. Join the revolution of creating greater resource security by adding solar to.
