

## PIENAAR ENERGY (PTY) LTD

# Solar power generation equipment research and development

## Overview

---

Department of Energy Solar Energy Technologies Office (SETO) funds solar energy research and development efforts in seven main categories: photovoltaics, concentrating solar-thermal power, systems integration, soft costs, manufacturing and competitiveness. The U. For laboratory professionals, mastering these areas is no less important than the initial. With innovation-driven development as its most important strategy and core driving force, Trinasolar has put in place a comprehensive and leading science and innovation system. Collaborating long-term with over 30 leading universities and research institutes in more than 10 countries to advance. The U. Subscribe to the solar newsletter. For a focus on NLR's solar.
