## Overview

---

Solar companies innovate packaging through cutting-edge technologies that improve product safety and reduce environmental impact. These advancements focus on smart monitoring and modular designs enhancing transport efficiency. Applying that knowledge and expertise, we will partner with you to understand your company's unique packaging needs and develop custom solutions. Let UFP Packaging help elevate your reputation in this growing market. C-P Flexible Packaging has plans to power 50% of our U. facilities with solar energy by 2025. In addition to reducing our carbon footprint, utilizing solar power will reduce costs and support C-P's continued rapid growth.
