### Solar power in the Netherlands

2008 Subsidies of 33 euro cents per kWh were introduced but initially failed to attract much development. However, when they were curtailed, the Dutch banded together to make large purchases at discount instead. 2011 A 500-kilowatt solar array was added to the roof of Rotterdam's central train station. 2012 Solar capacity more than

doubled to 321 MW with new added capacity of 175 MW.
