South Africa 2 billion energy storage project construction

Overview

The BESS project serves as a direct response to meet one of the urgent needs to address South Africa's long-running electricity crisis by adding more storage capacity to strengthen the grid while diversifying the existing generation energy mix. Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in. Minister of Electricity and Energy, Dr Kgosientsho Ramokgopa, has signed two project agreements and the commercial close of two projects appointed as preferred bidders under the first Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) Bid Window 1. Eskom officially opened the Hex BESS site at Worcester in the Western Cape yesterday. 4-billion in debt financing from Absa and Standard Bank.
