

**PIENAAR ENERGY (PTY) LTD**

# **South Korea Energy Storage Battery Project**

## Overview

---

(KEPCO) has completed construction of a large battery energy storage project in Miryang, Gyeongsangnam-do Province. Korea Electric Power Corp. The rated storage capacity of the project is 12,000kWh. The electro-chemical battery storage project uses lithium-ion battery. SEOUL, May 26 (AJP) - South Korea has launched its most ambitious energy storage initiative yet, opening the door to what officials estimate could become a \$29 billion market by 2038 — offering a much-needed boost to domestic battery manufacturers grappling with a global slowdown in electric. Korean utility KEPCO completed a 978 MW battery project that us billed as Asia's largest battery energy storage system for grid stabilization purposes.
