

PIENAAR ENERGY (PTY) LTD

South Sudan Wind Energy Storage Power Generation Project

Overview

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes. South Sudan is a landlocked country in East-Central Africa. It faces significant energy challenges, with only 7% of the population having access to electricity. This includes limited access to basic services, such as clean water, health care, education and adequate nutrition. [Learn More Shaping the Future Powered by Nature.](#) What is the grid-based electricity situation in South Sudan?

At present, the grid-based electricity situation in South Sudan is characterized by routine power outages and lack of efficiency in the distribution system. In fact, in 2020, 580 GWh or nearly 100 % of electricity was produced from oil and storage facilities in the country. President of Sokec Wu Song and Managing Director of Nilepet Muhammad Lino a significant chunk of its revenue. The country's building of pipelines, refineries.

South Sudan Wind Energy Storage Power Generation Project

- LIQUID/AIR COOLING
- ON GRID/HYBRID
- PROTECTION IP54/IP55
- BATTERY /6000 CYCLES

Jingneng south sudan independent energy storage power station

The energy storage station is a supporting facility for Ningxia Power's 2MW integrated photovoltaic base, one of China's first large-scale wind-photovoltaic power base projects.
