

**PIENAAR ENERGY (PTY) LTD**

# **Specifications for double anchor rods for photovoltaic support foundation**

## Overview

---

Specifications for mechanical anchor bolts for photo accommodating photovoltaic panels in Sarnafil® roofing systems. Does not need to be attached to structural steel or purlins. Best design is smaller and more. As global leaders in chemical anchoring systems, Hilti has provided threaded rod for anchoring applications in materials such as concrete and masonry for many years. We offer a broad portfolio of high quality pre-cut and custom cut-to-length Hilti anchor rods in thread diameters up to 2 1/2 inches. The utility model provides an anchor rod foundation of a photovoltaic module support. The anchor rod foundation comprises a concrete foundation, an anchor rod and an embedded part which are formed integrally, wherein the concrete foundation is horizontal; the anchor rod penetrates through the. r solar foundation applications. We offer many time proven solutions with experience in anchoring since the 1920's. It is important that the product and installation meet stringent requirements to ensure the. Anchor rods, also referred to as anchor bolts, concrete embeds, or foundation bolts, are embedded in concrete foundations to support structural steel columns, light poles, traffic signals, highway sign structures, industrial equipment, and many other applications. The system blends with. Hubbell Power Systems, Inc.

## Specifications for double anchor rods for photovoltaic support found

---

### Specifications for mechanical anchor bolts for photovoltaic supports

ASTM F1554 is a standard material specification for straight, bent, headed, headless anchor bolts and all-thread anchor rods, made of carbon, medium carbon boron, alloy, or high-strength low
