

**PIENAAR ENERGY (PTY) LTD**

# **St Lucia s new outdoor power field**

## Overview

---

Backed by St Lucia Electricity Services (LUCELEC), the initiative will be developed on a 70-acre site on the island's southwest coast. Once complete, the system will connect to LUCELEC's 66 kV transmission grid, reinforcing local grid stability while increasing renewable energy. Following the passage of Hurricane Beryl on Monday, J, St. after receiving clearance from the National Emergency Management Organisation (NEMO). Following. Union Power Station was a key component of LUCELEC's early generation infrastructure, powering much of the north of the island before 1990. (Photo credit: LUCELEC) LUCELEC has brought the old Union Power Station back into use — not as a generating plant, but as a new standby capacity site designed. In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project—a 10 MW photovoltaic installation paired with a 26 MWh lithium-ion battery energy storage system (BESS). [1] The tender was won by GRUPOTEC. It engages businesses, communities, institutions, and entrepreneurs to accelerate the adoption of market-based solutions that cost-effectively shift from fossil fuels to efficiency and renewables.
