

PIENAAR ENERGY (PTY) LTD

State Grid Micro Loan

Overview

The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for the installation of renewable energy systems or making energy efficiency improvements. Under Public Act 12-148, Section 7, Connecticut created a Microgrid Program to help support local distributed energy generation for critical facilities. This act required the Department of Energy and Environmental Protection (DEEP) to establish a pilot of the Microgrid Program. It was created as a. Many State Energy Offices and Public Utility Commissions (PUCs) have been tasked by their governors and legislatures with translating this interest into action by designing programs, policies, rules, and regulations for microgrids. Learn more about microgrids and how the State is facilitating microgrid development. Authorized by Section 40101(d) of the Bipartisan Infrastructure Law (BIL), the Grid Resilience State and Tribal Formula Grants program is designed to strengthen and modernize America's power grid against wildfires, extreme weather, and other natural disasters that are exacerbated by the climate. Microgrids are self-powered electrical grid systems that can be used to power a small community, a school, a hospital campus, or even a single-family dwelling, independently of the larger electrical grid. Microgrids have a unique role in transformi g the electric grid. The nation simultaneously faces increasing threats from extreme weather events and opportunities to electrify entire sectors of the economy and address ongoing inequit es in energy access.
