

PIENAAR ENERGY (PTY) LTD

Storage solar battery factory in Atlanta

Overview

ATLANTA (AP) — A clean energy company is abandoning a plan to build a giant electric battery factory in Atlanta's suburbs after it shifted to buy a solar panel plant in Texas. The Southwest Atlanta Energy Storage project is an innovative battery energy storage project proposed for Fulton County, Georgia that features batteries with a capacity of up to 250 megawatts and a 4-hour duration. It will provide Georgia with additional flexibility in managing the energy grid. Cherry Street Energy, the County's renewable energy provider, to upgrade existing solar power system with battery storage. They specialize in solar solutions, battery storage, and electric vehicle charging. Key offerings include Tesla's 500MW/2000MWh lithium-ion storage systems for grid stabilization and Georgia Power's 765MW projects co-located with solar. That's why Pulsar Industries presents PulseTrek—a compact and portable power trailer built to assist you through the most challenging situations. Whether your home experiences a blackout or you need instant electricity anywhere, PulseTrek is always on standby as your emergency energy source.
