

PIENAAR ENERGY (PTY) LTD

Substation uses Philippines server rack IP67

Overview

Hitachi Energy and Meralco team up to deliver the country's first digital substation, paving the way for a smarter and more reliable grid. Partnering with SEL provided the training and support to construct three complete. They can be in the form of rack enclosures, which are perfect for housing servers and networking equipment, or floor-standing enclosures that provide ample space for larger industrial components. When selecting an enclosure for industrial, electrical, or any other application, understanding the. Integrating validated hardware and software—based on open standards—gives utilities a comprehensive, ready-now solution that supports and simplifies their current and evolving development needs, including virtual protection relay applications. With an operating temperature range of -40 to +70 °C, the devices are designed for.
