

PIENAAR ENERGY (PTY) LTD

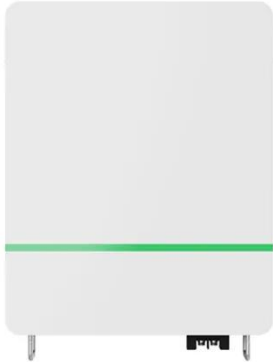

Tbilisi s newest base station wind power source

Overview

That's the Tbilisi Energy Storage Base – not just another battery farm, but a game-changer in the Caucasus energy landscape. Opened in late 2024, this lithium-ion wonder stores surplus wind energy from the Adjara Highlands and solar power from the Kakheti plains. Currently, total installed capacity of Georgian system is 4715,9 MW. Georgian power system is connected with the neighboring systems. It was learned on Jthat Goldwind Technology has made another success in the international wind power market and successfully signed the Ruisi 206MW wind power project in Georgia. The map below shows the exact location of the wind farm: Loading map. To access additional data, including an interactive map of global wind farms, a downloadable dataset, and. Georgia Capital PLC (the "Group" or "Georgia Capital") announces that the Government of Georgia has approved the concept of the Group's renewable energy business's Wind Power Plant (“WPP”) projects near Tbilisi and Kaspi. The approval represents a significant milestone to obtain Power Purchase.
