

**PIENAAR ENERGY (PTY) LTD**

# **Tesla megapack size**

## Overview

---

Each Megapack 2XL weighs approximately 84,000 pounds (38,000 kg) and the enclosure is built to a similar size as an intermodal container and includes twistlock fittings to allow automated handling. Overview The Tesla Megapack is a large-scale stationary battery storage product. Launched in 2019, it was announced in April 2019 that Tesla would sell standalone battery storage products to consumers and utilities. Tesla CEO stated that the company's battery storage products could be used to improve the grid. Each Megapack comes with a 15-year "no defect" and "energy retention" warranty. A 10 or 20 year "performance guarantee" is available for an additional cost. Once a Megapack has reached the end of its useful life, Tesla s.
