

PIENAAR ENERGY (PTY) LTD

**There are many more
communication base station
inverters in Phnom Penh**

Overview

In 2024, the company successfully commissioned an additional 475 Base Transceiver Stations, pushing the total to over 4,000 sites throughout the country. This notable expansion marks a major step in enhancing the quality and reach of mobile connectivity for millions of Cambodians. With this scramble for customers, millions of dollars in investments have been made to build domestic network provision for each firm – centered around a main switch, a base-station controller and a. Ericsson (STO:ERIC) For the first time, Ericsson (NASDAQ:ERIC) has combined a GSM base station and satellite transmission in a solar-powered site, enabling Cambodian mobile operator Star-Cell to expand its network coverage in remote areas. The solution offers affordable communications for all and. To enhance telephone service quality, 74 new antenna towers have been installed, and 157 antenna stations are now operational in Phnom Penh, as announced on 7 May 2024 during a progress review meeting led by HE Chea Vandeth, Minister of Posts and Telecommunications (MOPT). During the meeting, it. Visit the post for more.
