

PIENAAR ENERGY (PTY) LTD

Trina 450 photovoltaic panel performance

Overview

5% module efficiency with high density interconnect technology, Multi-busbar technology for better light trapping, lower series resistance, improved current collection and enhanced reliability. Reduce installation cost with higher power bin and efficiency. Up. Specifications included in this datasheet are subject to change without notice. The right of final interpretation belongs to Trina Solar Co., Ltd STC: Irradiance 1000W/m², Cell Temperature 25°C, Air Mass AM1. *Measuring tolerance: ±3%. Power (measured in watts) and efficiency (how well panels convert sunlight to electricity) are some of the most common metrics used to compare solar panel products. 9%, this panel ensures maximum energy output per square meter, making it. Up to 450W, 22.

Trina 450 photovoltaic panel performance

DT-M-0043 I Datasheet_Vortex S+_NEG9R.28_EN_2024_D

High energy yield Excellent low irradiation performance, validated by 3rd party - Lower temperature efficient (-0.29%/°C) and lower working temperature

Trina 425-450W Solar Panel TSM-NEG9R.28

o Excellent fire rating, weather resistance, salt spray, sand dust, and ammonia performance which is fully applicable in coastal, high temperature, humidity areas and harsh environments

[Get Price](#)

Trina Solar Panel 450W PERC

This module is ideal for maximizing energy yield in diverse solar applications, offering a combination of high efficiency, durability, and long-term performance.
