

PIENAAR ENERGY (PTY) LTD

Tunisia Solar Panel Production Project

Overview

In Kairouan, the 100 MW plant, financed in 2023, is reportedly 95% complete and could be operational by the end of 2025. The Tunisian government says concession and authorization frameworks are advancing multiple PV projects, while new entrants including SoleCrypt plan additional plants, boosting capacity, self-generation, and panel imports. From pv magazine France After years of delays, Tunisia is accelerating. French renewable energy company Voltalia has successfully secured the development rights for the 132MW Wadi solar project in Tunisia. The project is located in the Gabès region of southeastern Tunisia. At present, she works with Energy in Africa, where she covers electricity. Voltalia, an international player in renewable energies, has secured a 132-megawatt solar project in the Gabès region in south-east Tunisia After winning the Sagdoud project in May 2024 (1), followed by the Menzel Habib project in December 2024, Voltalia has been selected by the Tunisian. Voltalia has secured a new 132-megawatt solar project, following the Sagdoud project in May 2024 and the Menzel Habib project in December 2024. Tunisia's industry, mines and energy minister Fatima Chiboub signed the deals this week with.
