& MAINTENANCE

✓ PRE-WIRED

Overview

Through this approach, the project will establish a resilient, low-carbon energy system that aligns with the country's Sustainable Island State Agenda and Nationally Determined Contributions (NDCs). As the Minister responsible for energy, I would like to reiterate my commitment to ensuring that the citizens of the Federation have access to clean, secure, and affordable energy. I am also committed to the goal of 100 percent of our electricity being supplied from the optimum mix of renewable. The collection and treatment of data and information that is produced for the ERC is consistent with the International Recommendations for Energy Statistics (IRES), which provides a comprehensive methodological framework for the collection, compilation, and dissemination of energy statistics in all. This is the Energy Report Card (ERC) for 2022 for St. The ERC also includes sectoral data and information on policies and regulations; workforce; training and capacity building; and related areas. It highlights key indicators such as: The 2023 Energy Report Card for St. Not all generation is made publically available; thi chart provides known and.
