

Overview

Low voltage lighting uses a 12-volt power supply to illuminate outdoor spaces. This system provides a safer and more energy-efficient option compared to traditional lighting. To achieve this effect, it's not just about picking nice fixtures — the low-voltage landscape power supply (transformer) is the true heart of the system. This guide covers top-rated options that blend safety, durability, and smart features like dusk-to-dawn sensors and programmable timers. Each product supports 12V DC output from 120V. Check each product page for other buying options. DEWENWILS 120W Low Voltage Transformer with Photocell Sensor & Timer, 120V AC to 12V DC, Weatherproof Landscape Lighting Transformer for Spotlights, Garden Lights, Steplight, Billboard. Need help?

. A low-voltage transformer converts your home's standard 120-volt electrical current to a safer 12- or 24-volt output suitable for outdoor lighting systems.
