

PIENAAR ENERGY (PTY) LTD

What energy storage project is on the Australian island

Overview

The 250MW, 250MWh (1-hour duration) battery energy storage system (BESS) is sited on Torrens Island in South Australia, where AGL – Australia's largest generator-retailer utility company – is in the process of closing down a natural gas power plant. Australia's second largest battery storage facility has been brought into commercial operation by project owner AGL and system integrator Wärtsilä. The 250-megawatt (MW) / 250 megawatt-hour (MWh) ESS installed at Torrens Island in South. Aurecon is undertaking the balance of plant detailed engineering design of the 250 MW system, one of the largest energy storage systems in Australia. Torrens Island battery complex, Australia.
