

## PIENAAR ENERGY (PTY) LTD

# What is a site energy battery cabinet

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey metal cabinet for an Energy Storage System. The front door is white and features a small digital display and control panel. The text 'Energy Storage System' is printed on the door. A red emergency stop button is located on top of the cabinet. The model number 'DW-ESS-100P-200' is visible at the bottom of the cabinet.

-  **BATTERY CAPACITY**  
50kWh~500kWh
-  **DC VOLTAGE RANGE**  
400V~1000V
-  **DEGREE OF PROTECTION**  
IP54
-  **OPERATING TEMPERATURE RANGE**  
-10~50°C

## Overview

---

A Site Battery Storage Cabinet is a modular energy backup unit specifically designed for telecom base stations. It houses lithium-ion batteries (typically LFP), BMS, EMS, and optional thermal management systems to ensure uninterrupted power supply in grid-limited or off-grid. Highjoule's Site Battery Storage Cabinet ensures uninterrupted power for base stations with high-efficiency, compact, and scalable energy storage. Ideal for telecom, off-grid, and emergency backup solutions. " In modern commercial and industrial (C&I) projects, it is a full energy asset —designed to reduce electricity costs, protect critical loads, increase PV self-consumption, support microgrids, and even earn. Central to this infrastructure are battery storage cabinets, which play a pivotal role in housing and safeguarding lithium-ion batteries. Highjoule's site energy storage solution delivers stable, efficient, and intelligent power for diverse application scenarios.
