What is the base station communication project for

Overview

A base station connects your phone to the network. They provide the coverage you need for calls and data. What is Base Station?

What is Base Station?

A base station represents an access point for a wireless. Base station (or base radio station, BS) is - according to the International Telecommunication Union 's (ITU) Radio Regulations (RR) [1] - a " land station in the land mobile service. It enables seamless communication by linking various wireless devices to broader networks, ensuring that data flows efficiently from one point to another.

Product Model
HJ-ESS-215A(100KW/215KWH)
HJ-ESS-115A(50KW/115KWH)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Base Stations

Base stations form a key part of modern wireless communication networks because they offer some crucial advantages, such as wide coverage, continuous communications and an array of ...
