**What is the price for farmers to
install solar panels**

Overview

Initial costs for solar panels can range from \$10,000 to \$30,000 for a small to medium-sized farm. USDA's Rural Energy for America Program (REAP) offers grants covering up to 25% of total project costs. Energy audits can identify the best solar solutions and potential savings. Installation costs are influenced by the size. Every year the government decides how much tax credit you might receive for installing solar panels on your commercial farm or ranch.
