What is the price of a water pump inverter in Iraq

Overview

The price of water pumps in Iraq can vary widely. According to Al-Baqer, a local supplier, prices for basic centrifugal pumps start around \$100, while high-end submersible pumps can exceed \$1,000. - Mid-range Submersible Pumps: Current estimates place the market value at over \$200 million annually, with projections indicating a 7-8% CAGR through 2027. These inverters are ideal for applications that require fast, precise, and continuous energy flow, such as solar power systems. AIObaidi Pumps company, the official agent and approved for sale PEDROLLO products in Iraq, please visit company's site to see latest equipment. The solar pumping inverter converts DC power produced by solar panel to AC power which drives AC pump to pump water from borehole.
