What to do if the photovoltaic panel is folded and pulled apart

Overview

The most common way is to replace the broken panel with a new one. This can be done by a qualified solar technician. Your power inverter may also produce an error message if it's designed to do so. Or, you might. Disassembling solar panels requires a careful approach to ensure safety and efficiency, and it involves specific steps and considerations. Essential tools and protective equipment are crucial during the process. Welcome to our series answering reader questions and concerns about how to cut the utility-company cord.
