# **What to do with the broken photovoltaic panels**

## Overview

---

The most common way is to replace the broken panel with a new one. This can be done by a qualified solar technician. But what to do when your solar panels receive damage varies depending on the nature of the problem. When it comes to solar, the pros outweigh the cons for the most part. However, solar panels are still susceptible to issues that cause them to. Handling broken solar panels properly is crucial for safety, environmental protection, and economic efficiency.
