

**PIENAAR ENERGY (PTY) LTD**

# **Where is the Kiribati energy storage power station**

## Overview

---

The power station is strategically located on South Tarawa, Kiribati's capital island, serving over 50,000 residents. Key features include: “Containerized systems are game-changers for islands. They're like LEGO blocks—easy to deploy, modify, and weather-resistant,” says a. This Pacific island nation, composed of 32 atolls, has historically relied on diesel generators for 94% of its electricity - a Band-Aid solution that costs \$0.45/kWh while emitting 58,000 tonnes of CO<sub>2</sub> annually [4]. But here's the kicker: rising sea levels threaten 70% of Kiribati's habitable land. Nestled in the heart of the Pacific Ocean, the Kiribati energy storage container power station represents a groundbreaking step toward sustainable energy solutions for remote island nations. Luminant, a subsidiary of Vistra Energy, was engaged in the construction of the Moss Landing phase one battery storage project.

## Where is the Kiribati energy storage power station
