

**PIENAAR ENERGY (PTY) LTD**

**Why are photovoltaic panels  
not allowed to be installed  
commercially**

## Overview

---

Installation of solar panels is often restricted due to various regulations, including zoning ordinances, safety concerns, and aesthetic considerations, significant homeowner association guidelines, and regional variances in energy policies. Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. [com/wp-content/uploads/2024/11/image-70213](https://www.com/wp-content/uploads/2024/11/image-70213). Following the installation, a professional from the local government. Previously, it only required that building plans be designed to accommodate the installation of solar in the future. The new code requires that a certain amount of solar actually be installed, along with some amount of battery capacity, in certain cases.
