

PIENAAR ENERGY (PTY) LTD

Wide-temperature type battery storage cabinet for charging piles

Overview

A lithium battery charging cabinet is a secure enclosure designed specifically to store and charge lithium-ion batteries safely. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. These meticulously designed lithium-ion battery storage containers provide Lithium-ion Battery Safety, including 90-minute fire resistance against external sources. The CellBlock EMS (Exhaust Monitoring System) is a cabinet add-on that enhances battery charging and safe storage. Securall understands the critical risks associated with modern energy storage. Ensure compliance with OSHA regulations and protect your workplace from potential hazards.
