

PIENAAR ENERGY (PTY) LTD

Wind Solar and Storage Investment and Construction

Overview

This article explores the potential hotspots for solar, wind, and hydroelectric power, while also delving into the challenges of grid reliability and the role of innovative solutions like small modular reactors (SMRs) and advanced energy storage systems. The new tax law, commonly referred to as the One Big Beautiful Bill Act, rolled back many clean energy tax credits and imposed new restrictions, pressuring early-stage wind and solar pipelines. Wind and solar investments in the first half of 2025 fell 18%, to nearly US\$35 billion (prior to the. The OBBB's enactment dramatically shifts the landscape for renewables and energy transition investments. The Oasis de Atacama in Chile will be the world's largest storage-plus-solar project. Video used courtesy of Greenergy Key solar players like China and the U.
